PROFILE

Computer Engineering student with hands-on experience improving an inventory system, building frontend interfaces for university systems, configuring networks, and supporting day-to-day IT operations. Interested in practical software, IoT, and connected systems.

EXPERIENCE

Information Technology Intern

Jun - Jul 2026

Phelps Dodge Philippines Energy Products Corporation

- Maintained and improved a company inventory system using VB.NET, SQL Server, and Crystal Reports.
- Supported application and database troubleshooting, laptop configuration, cabling, hardware setup, and general IT requests.

Student Assistant (MIS)

Aug 2024 - Jun 2026

Colegio de Muntinlupa

- Developed frontend interfaces for university systems and contributed to web-based student and employee workflows.
- Assisted with network routing, basic setup and troubleshooting, and departmental administrative support.

EDUCATION

BS Computer Engineering

2023 - 2027 (Expected)

Colegio de Muntinlupa

Dean's Lister

TECHNICAL SKILLS

LANGUAGES

C#, VB.NET, JavaScript, Python, Java, SQL, HTML/CSS

WEB

React, Node.js, Express, Tailwind CSS, Bootstrap, REST APIs

DATA & REPORTING

SQL Server, PostgreSQL, Crystal Reports

SYSTEMS

Git/GitHub, networking, cabling, hardware setup, troubleshooting

SELECTED PROJECT

SmartEco-Column

ESP32 environmental monitoring prototype using MQTT, Node.js, WebSocket, and React.

github.com/Ezumaex/smarteco-column
